

SANTHOSH KANNAN

+91 9074033475 | Idukki, Kerala | santhoshkannan.dev@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Results-driven MCA student with hands-on experience in full-stack web and mobile application development using the **MERN stack** (MongoDB, Express.js, React.js, Node.js). Skilled in building responsive user interfaces, developing and integrating REST APIs, and managing databases. Experienced in mobile application development using React Native. Passionate about delivering real-world software solutions in collaborative, remote environments.

EDUCATION

Master of Computer Applications (MCA) Marian College Kuttikkanam Autonomous	2025 – 2027
Bachelor of Computer Applications (BCA) Marian College Kuttikkanam Autonomous	2021 – 2024

SKILLS

MERN Stack	MongoDB, Express.js, React.js, Node.js
Frontend	React.js, React Native, HTML, CSS, JavaScript, Responsive UI
Backend & APIs	Django, Django REST Framework, Node.js, RESTful API Design
Databases	PostgreSQL, MongoDB, MySQL, Database Optimization
Cloud & DevOps	AWS, Linux Administration, Git, GitHub
Mobile Development	React Native (iOS & Android), Cross-platform UI
Languages	Python, JavaScript, SQL, C

ACADEMIC PROJECTS

NavaKrishi – AI-Powered Smart Agriculture Platform React.js, Django, PostgreSQL, Python, Machine Learning	GitHub
- Developed a full-stack agriculture marketplace connecting farmers and consumers. - Built REST APIs using Django REST Framework and implemented role-based authentication. - Integrated Machine Learning models for crop prediction and personalized recommendations. - Managed data using PostgreSQL and created responsive interfaces with React.js.	
NavaYatra – Smart KSRTC Bus Booking & Travel Management System React Native, Django, PostgreSQL	GitHub
- Developed a cross-platform mobile application for KSRTC bus booking and travel management. - Implemented user authentication, bus search, seat booking, and ticket management features. - Built RESTful APIs using Django and optimized database operations with PostgreSQL. - Designed a responsive mobile-first user experience using React Native.	
NeXGeaR – Gaming PC & Components E-Commerce Platform React.js, Django, PostgreSQL	GitHub
- Developed a full-stack e-commerce platform for gaming PCs and computer components. - Implemented authentication, shopping cart, wishlist, and product management features. - Built responsive user interfaces with React.js and backend APIs using Django REST Framework. - Designed an admin dashboard and managed data with PostgreSQL.	

CERTIFICATIONS

- Python Essentials 1 – Cisco, 2024
- Fundamentals of Networking and Cisco Devices – Packt (Coursera), 2024
- Python for Data Science – NSDC, 2024
- SAP S4/HANA Finance and Controlling – SAP, 2024
- Tally Essential Level 1, 2024

ACHIEVEMENTS & ACTIVITIES

- Completed **NPTEL – Introduction to Machine Learning**, an IIT-certified 8-week course covering machine learning fundamentals and data-driven problem solving.
- Regularly solve coding and DSA problems on **LeetCode** and **HackerRank** to strengthen algorithmic thinking and problem-solving skills.
- Participated in **CodeWars – Tekron 2.0**, a competitive coding event organized by Newton School of Technology.
- Developed and maintained full-stack web and mobile applications using **React.js**, **React Native**, **Django**, and **PostgreSQL**, showcasing projects on GitHub.
- Continuously learning **AWS Cloud Computing**, **Linux Administration**, **Networking**, **Data Analytics**, and **Machine Learning** through hands-on projects and self-study.
